

Walk the Talk

A UNIQUE PROGRAM CO-CREATED BY MARITA FRIDJHON & FAITH FULLER

"Walk the Talk" - such a familiar statement and yet so much easier said than done! We live and coach in a world caught up in turmoil, often at the expense of paying attention to our own internal systems responding to external upheavals.

You, as practitioner, have had impact globally during times of war, natural disaster, political unrest and corporate challenges. As ORSC™ professionals, we all have worked hard and extended our hands and our hearts - often beyond our capacity - in service of something bigger than ourselves.

OVERVIEW :

What about you? What does it mean to walk the talk of right relationship? What does it mean to live the work, not only practice it with clients? How can we deepen our own relationship mastery? How can we deepen our own relationship with ourselves, with others and with the greater entity?

Are you hungry to sit down in community to deepen the exploration of being in right relationship with self, other and our larger world?

Join us on March 5-7 2020 in exciting Dubai for a three (3) transformative day program - Walk The Talk

YOUR EVOLUTION IN THE PROGRAM :

The *Walk the Talk* experience is an opportunity for us, as ORSC practitioners, to evolve by :

- **Refreshing** our knowledge and application of Relationship Systems work
- **Deepening** our relationship with ourselves, in the company of valued and skilled colleagues
- **Daring** ourselves, in community, to look from the outside in, discovering our impact as experienced by others
- **Learning** how to walk the talk of right relationship - beyond coaching or teaching - to learn how to be better in relationship with self and others
- **Learning** some new tools not taught in the series
- **Sharing** laughter and precious insights
- **Standing together** to explore the evolution of our relationship to IT, the larger world, the ultimate Third Entity

Testimonial :

Highest recommendation for Walk the Talk! It is a deep dive into who we are and how differently we show up in different places. I would recommend this to everyone who is committed to this work with Relationships. It is the beginning of a map of how you show up and be in the world, and allows empathy and compassion for yourself and others as we navigate this wonderful territory.
